

Innovating Transparencies for High Performance Cars

Superior Glazing Technologies
for Automotive

The Company

As the world leader in high-performance transparent solutions, Isoclima is at the forefront of technological innovation, delivering unparalleled quality, precision and protection. We specialize in crafting solutions that blend **complexity** and **customization** to meet the unique needs of our customers across Land, Air and Sea.

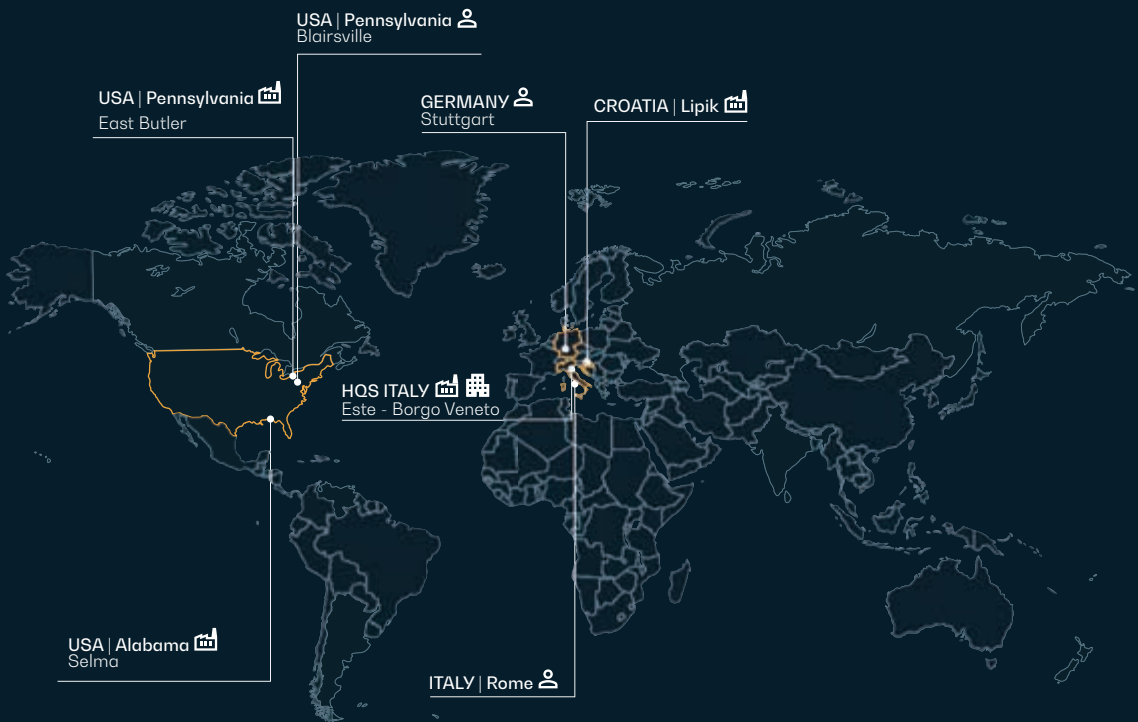

With a steadfast commitment to **security**, **safety** and **sustainability**, Isoclima sets new benchmarks in performance and craftsmanship. Through relentless investment in R&D, we drive transformative innovation, ensuring our solutions not only meet but exceed the demands of the most challenging applications.

Our Global Presence

Isoclima's global presence is a testament to its leadership in advanced transparent solutions. With manufacturing sites and offices worldwide, we create seamless synergy across our departments, ensuring collaboration and expertise are shared across all locations. This integrated approach allows us to deliver exceptional, **high-performance solutions**, maintaining the highest standards of quality, precision and innovation in every project.

At Isoclima, **quality defines who we are**. Our commitment to continuous innovation and precision engineering has made us a trusted partner for the world's most prestigious automotive brands, including **Pagani, McLaren, Aston Martin, Koenigsegg and Rimac**. We set the standard in high-performance glazing, delivering **exceptional optical clarity, impact resistance and lightweight solutions that enhance both safety and design**. Every product meets the industry's most rigorous certification standards, ensuring compliance with the highest levels of performance, reliability and craftsmanship. Our expertise extends beyond technology—we create value-driven solutions that push the boundaries of automotive excellence.

Advanced Capabilities

Customized Elegance and Security

Isoclima's glazing solutions blend cutting-edge technology with bespoke craftsmanship, tailored for high-end automotive brands like Ferrari, Lamborghini, McLaren and Pagani. From lightweight materials to advanced security features, our solutions enhance both performance and aesthetics without compromise.

Laminated Glass and Polycarbonate

Reduces weight while providing unparalleled resistance to impact and environmental conditions.

Frameless Glazing Technology

Isoclima's patented laminated glass technology increases stiffness by over 200%, allowing for sleek, frameless designs while maintaining structural integrity. This innovation provides a perfect balance of style, safety and performance.

Innovative Features

Includes heating systems, solar control coatings and scratch-resistant surfaces to ensure exceptional functionality and longevity.

Advanced Glass Technologies

Isoclima integrates cutting-edge processes such as **chemical tempering**, **precision press bending for HUD-compatible windshields** and **high-performance coatings**. Our solutions include **solar control coatings** and triple silver layer coatings, ensuring optimal clarity, energy efficiency and superior durability.

Innovative Products

— Lightweight Polycarbonate Glazing

Leveraging expertise from aerospace and motorsport, Isoclima provides advanced polycarbonate solutions that deliver significant weight savings—up to 50% compared to traditional glass. These solutions include scratch-resistant coatings, micro-wire heating systems and solar control features, all while prioritizing high-performance visibility.

— High Performance Visibility

Designed for racing cars, our glazing ensures clarity and durability, able to withstand the extreme conditions of motorsport. Trusted by champions of prestigious events like Le Mans, these products guarantee superior performance under pressure.

— Variable Light Control (CromaLite®)

Isoclima's proprietary **CromaLite®** technology, based on Suspended Particle Device (SPD), offers adjustable transparency for privacy and solar control. This innovation enhances the driving experience, combining luxury and functionality seamlessly.

Our Commitment to Sustainability

Sustainability is at the heart of Isoclima's innovation.

We continuously develop eco-friendly solutions, from solar control glass that reduces energy consumption to lightweight materials that enhance fuel efficiency.

Our dedication to reducing environmental impact extends to every phase of product development.

Why Choose Isoclima?

At Isoclima, security, protection and innovation are at the core of everything we do. We combine **cutting-edge technology**, **aesthetics** and **customization** to meet the highest industry standards. From **Defense and Security** to **Sustainable Architecture** and **High-Performance Mobility**, our expertise spans multiple sectors, delivering tailored, future-ready solutions that anticipate evolving needs. With a relentless focus on **safety, performance and innovation**, we help shape a more secure and advanced world.
